SUSTAINABLE DUNDEE MAP

The United Nations Sustainable Development Goals (SDG's) are an urgent call to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity. The 17 Goals are connected, which means that action in on area will affect outcomes in others. Sustainable Dundee is a city-wide initiative to tackle the Climate Emergency locally and is fully aligned with the UN SDG's.

Dundee Climate Fund

The Dundee Climate Fund has been set up to support community-led climate change projects. It's based on a model called Community Choices where citizens will decide how to spend a budget that supports the delivery of the city's Climate Action Plan.

The Dundee Climate Fund has a total of **£750,000**, where **£250,000** is revenue and **£500,000** is capital funding.

The Dundee Climate Fund will support projects that relate to one or more of the following themes:

-  · **Energy:** reducing consumption, promoting energy efficiency, use of renewables.
-  · **Transport:** encouraging active travel, decarbonising transport.
-  · **Waste:** reducing waste, recycling, reusing resources.
-  · **Resilience:** improving greenspaces, biodiversity, local food growing.
-  · **Community Engagement:** increasing public awareness, engaging communities and young people in climate change.

Public vote

- Dundee citizens will determine which projects the funding will be awarded to.
- All voters will distribute the entire budget across applications using the *shopping basket* procedure.
 - Shopping basket procedure: Voter chooses how to spend entire round's budget across projects.
